

# Craigdhu BikeBus FAQs

## What Is A Bike Bus?

A Bike Bus is a fantastic way to support and encourage primary-school aged children to cycle to school giving them the experience of cycling on roads, with the safety of being directed by adults and surrounded by others cycling. Adults ride at the front and back of the bike bus, and alongside the children. The aim is to travel in a group, have fun, and get to school in an active and safe way.

## How Do I Join In?

All you need to do is turn up on your bikes at one of our "bus stops" or merge in to the Bike Bus as we pass by. Everyone joins the bike bus at their own risk. *Parents are responsible for their children's safety.*

Parents/guardians should ride with their child, unless the child would normally cycle on roads alone.

## Can I Ride My Scooter or Balance Bike?

No, but baby seats, trailers, cargo/taxi bikes and tag-alongs are all welcome for children that can't ride a bicycle themselves yet.

## What if I Don't Have A Bike or a Helmet?

If you're interested in joining the bike bus, but you don't have access to a bike or helmet (for you or your child) or you don't have the confidence to cycle in a group, then please let us know via our email: [craigdhubikebus@gmail.com](mailto:craigdhubikebus@gmail.com) - If you have any other questions please get in touch.

## What Do I Need To Bring?

Your bikes - in good working order! We strongly recommend wearing a cycle helmet.

## What Does It Cost?

Nothing at all! It is completely free to take part.

WHATSAPP QR CODE

## The Route:

Start @ 0845hrs

Drumlin Drive -  
Culdesac

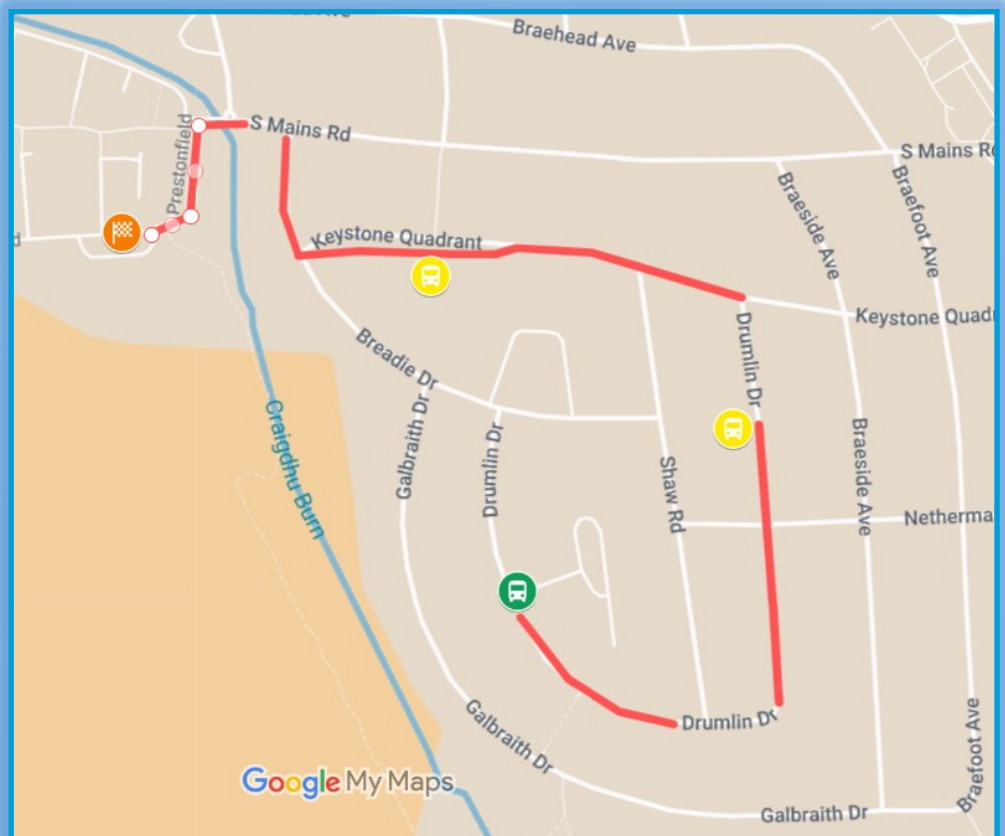

Bus Stop 1 @ 0848hrs

Drumlin Drive (between  
Nethermains Road and  
Keystone Quadrant)

Bus Stop 2 @ 0851hrs

Keystone Quadrant at  
the secret park/lane

End @ 0855hrs

## Bike Bus Roles:

**Bus Driver:** Rides at the front and sets the pace. Everyone in the main group follows the leader and makes sure to stay behind them.

**Bus Conductor:** Rides at the back and makes sure no-one gets left behind or separated from the bike bus.

**Junction Helper:** Creates a safe passage by pausing in the road until the whole bike bus has navigated a junction.
